

The BEST Wedding Emergency Kit List

During wedding planning, you are doing everything you can to ensure that things are planned within an inch of their life. That's why wedding planning is so hard. However, even if you are an expert wedding planner, something won't go perfectly. That's why an emergency kit is helpful.

Do you need everything on this list? No, but it doesn't hurt. It's considered insurance for your wedding day. Below is a listing of all the items that I have seen brides need or use on a wedding day over my 10 years of photographing weddings. Also, these emergency kits are great to put into your car after the wedding. I literally still have mine! Most importantly: This is the day you are marrying your best friend! So, if something small does come up, don't worry about it at all!
